hanging and decorating and

painting at actual cost in

Jim Dumps had in his neighborhood a man who he would try to find. "Buy that tone box of 'Tone' you'll cost. So little that there's not much lost. You'll keep on, the 'Tone' you'll find. 'Tone' will force you to," said "Sunny Jim."

**A Little Coal Goes A Long Way**

towards heating a house if fed into a furnace made to heat with coal, which does not feed the fuel up the chimney in smoke.

**Sunshine Furnaces**

will extract more heat from a unit of coal than any other good furnace.

Every square inch from the bottom of fire-pot to top of dome is direct radiating surface.

The dome is made of heavy steel-plate, which makes it more effective heater than the cast-iron dome put in common furnaces.

The "Sunshine" has no moving parts, and still is so simple that any person can operate it.

### THE BOSS GOVERNMENT.

At the last general election the people awarded a majority of over 5,000 against the Government.

A change of policy was made against the Government and his colleagues.

Disappointed politicians should not be discouraged. A scientist declared the world will last at least 20,000,000 years yet.

When a Chicago Alderman resigns to engage in the milk business, it may be concluded that he has the "stripping" process down pretty well—Buffalo Express.

Here is a story which President Roosevelt is credited with having told the other day to members of the "Up With Canada" Club.

Some time ago, a man was elected to an office in which the salary was \$1,000 a year. He was poor and in debt when he took the job.

After serving eleven months he inherited \$10,000 in real estate, \$50,000 in cattle and had \$20,000 in bank.

He was able to start an investigation as to what he had done with the rest of his salary.

Three times success have filed applications for Dakota divorces which shows that there is some particular thing as recognition to avoid civilisation.

A man writes the story of his 42-year-old wife, stating for the first time a look of gray hair on his father's head, asked:

"Why are some of your hairs gray?"

"Thinking to drive home a moral," said the father.

"Dogs get a gray hair like you, the little boy is angry."

"Well, then, grandpa, must have had a awful angry boy?"

A dispatch from the West tells of a new style of women which is invading the White Water Valley and which cuts weeds and lets the crops alone.

Westerners are in full operation will convince the Eastern folk that there is such a land west of us.

### TIMELY TOPICS.

Where are the police that they do not stay that instant practice of those boys and young men who are swimming off the Grand Pacific?

Yesterday during the latter part of the afternoon and evening young men would be seen in a naked condition off the place.

Are our neighbors, wives, sisters and children to be subjected to this kind of conduct? The authorities can make an example of some of them, or, at least, force them to wear swimming trunks which can be bought for the small sum of ten cents.

To sum the whole matter up in a nutshell—"Give us Public Baths."

A high price official has told it was this morning, remarked "let a little fish bleed in you and you will stop coughing."

It is a fact that I am cold-blooded, but then I have a little fish blood."

The writer remarked that he was cold-blooded all right, though, but didn't know you were part fish blood.

Those Wednesday afternoon ball-dances are fine affairs for the clubs and other who can enjoy them. The Prince and Underholder, however, work without ceasing.

If this is to become an automobile town, we rise to remark, to rise at least should respect the machine especially of an afternoon, or evening?

It means this: Autos sometimes go at high rates of speed, and women and children frequent the park and in all common sense should not know machines to be from the people's breathing spot.

There are plenty of fine roads for auto and horse alike, but the Ontario people should be kept informed, so that they be kept informed, but at least should respect the machine especially of an afternoon, or evening?

### SHOCKED AT CORRUPTION.

PROMINENT LIBERAL OF FRONTENAC INSURES VIEWS AGAINST CORRUPTION.

Kingston, Ont., July 8.—A peculiar political condition has arisen among the Liberals of the county in connection with the Shibley election.

It seems that a prominent Liberal, who lives at Yorkton, has been shocked at the corruption which was practiced at the election, and although he is in a new matter of the pet, he has had a serious talk with the Shibley election.

### THE TOMCAT PLANT.

Its Origin According to a Quaint Story.

The prophet was taking a stroll in the country when he saw a serpent, who was coiled, as you know, the serpent had recovered its life.

"Why, you old serpent, how now going to bite life?"

"Oh, my friend, I am now going to bite life."

"Because you have perpetual war with man," said the serpent.

"Yes, my friend, I am now going to bite life."

"Why Not Investigate?" This is a heading upon a somewhat lengthy article in the history lesson of the contemporary. It is in defense of the late Lady Superintendent of the Hospital, who had been resigned her position.

The article says: "Before she resigned she was asked for investigation by the Board of the W.M.A., but we understand the investigation was refused." This is an unusual position, who has done much for the institution, to attract.

For the benefit of our attacking friend down street we may inform him that, if an investigation is really wanted, it should be conducted WITHOUT difficulty.

As for ourselves we regret that such an article was written, as it serves no good purpose.

We are informed by those who should know that what is most needed in Belleville's Hospital is a MEDICAL SUPERINTENDENT.

If the present incumbent remains as Lady Superintendent, it is the duty of those in charge to furnish her with a backstopper, so that the patients and other matters pertaining to the institution can be handled without attention.

Many of our men go west to help them in the white fields of Manitoba during the rush season. Let Canadian promise year round employment and there will be plenty of men.

## TIMELY TOPICS.

It seems the Aldermen ought to call the vote to the Council. Council for \$10 a ton, but we don't know of any law which forbids them to go down into their pockets and personally contribute \$250 per ton towards the purchase of other rails for the Council pocket. It is not for the Council pocket, but for the pocket of the city, they certainly should not be sitting with their own.

We move that that celebrated "opinion" has been read in open Council, it is framed and hung up on the walls of the Council Chamber. At this point, the members of the Council are not satisfied with the opinion of an official who is paid in and ostentatiously, know his business.

Have the members of the Board of Education heard of any complaint in respect to a certain Public school last season? If they haven't they must have their ears stopped up on purpose.

The Dublin City Council will not give King Edward an address of welcome. There must be a lot of dare in that Council, none.

There now seems to be two wings of the Grit party, and those are about the only wings most of them will ever get.

## Weak Heart, Sudden Death

MANY FALLING BY THE WAY BECAUSE OF THIN BLOOD AND WEAK HEART ACTION.

Scarcely a newspaper last week reported the death of a man, the result of heart trouble. With the blood in proper condition, it is not so readily as we hear and think on after day and night after year. By continuing purifying the blood Dr. Cass's Food prevents and cures palpitation of the heart, irregular action, weak heart action, and similar derangements. It cures dyspepsia and vigorous action of all the vital organs. Note your increase in weight while using it. The portrait and signature of Dr. A. W. Cass are on every bottle.

**CURIOUSITIES OF BOOK SALES.**  
Commenting on the phenomenal sale of some recent novels, a correspondent of the "Book Buyer" writes interestingly of notable books that years ago were popular, but since have become practically unknown. He says:

There was once a very popular preacher who wrote many books, and for every one there was a large demand on the day of publication. But most of them passed out of print while he was still living, and I doubt if a single one of them is now kept in stock by any bookseller. Not many years ago appeared a book which the leading houses and the thousands of thousands, because they thought it showed how an equal distribution of all property might be brought about. How it appears to be dead. Hesper's "Impending Crisis" attained a sale of 10,000 copies, forty years ago, which was as great an achievement as half a million would be today. That was because of its bearing on burning political questions and the fact that it was systematically attacked in Congress. Now you can occasionally find a stray copy of it in a second-hand shop. "The People's Friend" was another book that reached about the same circulation. For purposes of comparison, this and "Uncle Tom's Cabin" would seem to be almost unknown. But while the "People's Friend" has been almost entirely forgotten, "Uncle Tom's Cabin" is still a household name. The author of which is still a household name. The fact that it might seem like telling tales out of season, but the fact is that certain books that have been in the hands of the people for many years have stopped suddenly and unaccountably, as if at a mysterious signal.

For the reverse of the picture, the notable example is afforded by "Ben Hur." This book had no sale at all in London for a year after its publication, and was considered dead. It was not until it was translated into German that it began to sell, and it is now one of the most popular of all books. It is still one of the most popular of all books.

# Sunshine Furnace.

LARGE, CLEAN ASH-PAN.

"In most furnaces the ash-pan is concealed in a more distant place—in the 'kitchen' it is given as much care as the most important feature.

And the ash-pan is constructed so that all the ashes must fall into the ash-pan which is large and roomy—no scraping, shoveling and sweeping up ashes is taking care of a white heater.

In no other furnace is the furnace, too, really important little features given so much thought and care.

"Sunshine" furnaces make house-keeping easy, cheap and sure.

CONSERVATIVES GETTING REA

Persistent rumors of a general Dominion election this fall are now in all parts of Canada just now, in many places. Conservatives are already preparing for the fray. It seems to us, is a wise course to take, and one that might well be copied in Hastings County. The Conservatives of Toronto will hold a large party demonstration in that city towards the end of August. Such gathering is, of course, of interest not only to Toronto Conservatives but to those of the whole Dominion. (WV) It is not known whether there will hold an election this fall is problematical. There seems to be little doubt that it was the intention to hold an election before next winter. But that was before the realignment.

of Mr. Blair, and some are of opinion that Mr. Blair's resignation will be strongly towards a postponement of such election. The Government might indeed wish wait for time, if possible, to heal the shocks to which it has recently been subjected, but the further the Government goes the more its record and reputation become, and the reasons of the Government, in an election this fall may be such will not break delay.

In the meantime, now that election talk is in the air, we commend to our readers an attentive perusal of the following remarks of the *Montreal Gazette*, which, after commenting on the proposed Toronto demonstration, makes some highly pertinent and timely observations on the character and record of the Conservative party. They are, in part, as follows:

[illegible]

the country's prosperity were lost. Sir John Macdonald did not need permission to tell him and his friends that the country would be poorer if the Northwest into the federal domain. He did not propose to wait for the decision of the House of Commons on the chance offered (and lost) by the construction of a railway to complete the connection between the Atlantic and the Pacific. His successor did not need a commission to instruct him when the time came to put up a fast steamship service between the Atlantic and the chain in which a fast transcontinental railway and a fast Pacific coast service were links. The Conservative government was confronted with a national issue and a national crisis. It was not a crisis with no national issue. It was a crisis with the national issue of the westward movement of the country. It was a crisis with a clear policy which the people could understand, and which was the same wherever its platform was set. It was a crisis which has been, Mr. Jordan makes it plain, the same kind of a speech in Winnipeg as it was in Montreal, and which was the same in the mouth of the people.

associated with him in the backbone of the party. To have them together in the political, commercial and intellectual centre of the province of Ontario, meeting their friends face to face under the conditions that tend to create unity and enthusiasm, will have an effect for good all through Ontario, and indeed, all through Canada."

WOOL CRASH.

People are asking what it is. Wool crash is a sort of misnomer. It is not crash, but simply a light cool worsted in a crash weave. I hold it up to the light—you can see through it. Yet it's as tough, as strong almost as thick heavy, and why enough to hold its shape. In a cool summer vacation knockabout suit, wool crash takes the lead. Good, enough, too, for business. Come, see! Suit prices, \$37.50, \$40 and \$75.00—Quick & Roberts.

**TIMELY TOPICS**

Something dropped in Manitoba  
today.

When the Hon. Dica. Greenway  
pears to have received the  
monumental bump in his care

Murreh) for our old Bay of Qu-  
by Mr. R. R. Roblin, who is  
to be properly appreciated in  
Prairie province.

It must begin to dawn on Green-  
by this time that the Manitobans  
are pretty well tired of Grits.

Up to ten o'clock this morning  
returns showed that Roblin  
carried 27 seats out of 31. There  
are 40 seats altogether, and the  
whole of them the Grits  
hardly get two sets of four.

It has been noted in recent years  
that, as regards weather, Manitobans  
set the fashion for the rest of  
Canada. Unless all signs fail,  
is shortly going to set the fashion  
in politics, also.

There is no doubt at all that, an election held in Ontario just the Grits would get a worse thrashing than they did in Manitoba.

In the Dominion House the Grits all at sixes and sevens. It was surprise nobody to see Sir Wilfrid Laurier retire from politics so long. Then the smash would confer they have no one to take place.

Taken altogether, the political outlook is bright for the Conservatives. (With a good cause, a leader, and a good example them by the stalwarts of Manitoba) they may well take heart of and confidently look for the advent of victory, which is surely in air.

Kingston, according to The Vindicator, may have \$625 coal if a penny deal goes through. \*

Radium, scientists say, will cure cancer. But at \$900,000 a pound it costs easy. \*

THE VINDICATOR SUGGESTION.  
(Hallaft Theriault.)

Sir Wilfrid Laurier's suggestion that Mr. Blair that he could remain in the Government though strongly opposed to the Premier's policy, is a good indication of the Premier's moral perception. It recalls his debate to Sir Michael Cartwright whom he praised and declared that he did of all honor, because in his opinion he was the only man who he did exactly the thing Mr. Blair refused to do. And except a few, he was disappointed of. Evidently Sir Wilfrid's political morality cannot be described as severely virtuous. It is good enough for the crowd.

If the lady whose communicant signed "JUST A WOMAN" leave her name at this office, guarantee of good faith, we publish her letter RE THE HOSPITAL.

The good Gluck says "Profuse prices and free whiskey" were announced. And once more we see the spectacle of Satan repeating himself.

Dr. Sheard, Medical Health Officer, Toronto, has been examining anti-sipping by-laws, which are in force in other places, and is likely that some plan of stopping the evil may be formed there. London, Hamilton and Guelph, the Telegram, signs are placed conspicuous places on the street warning persons against the sin.

You are violating the law against spitting. You are subject to a fine of \$50 and costs. By order of the City Council.  
 C. B. EDWARDS,

Some action of that kind now  
well be taken in Belleville, where  
the spitting habit is a nuisance.

Rev. Mr. Rice's son, the Rev. R. Rice, Ph. B., of Toronto, has recently been requested by the Missionary Board of the Methodist Church to take charge of the Indian Institute at Red Deer, Alberta, and, associated with him, his father. They both responded to the call of the church, and anyone who is familiar with Belleville knows the church has acted wisely in making the selection.

The following, from 'the  
Globe, concerns two gentlemen  
years ago, lived in this city.

Murray was at one time a despatcher here, and we are told that Edison, when a boy telegraph operator in the office of the late Geo. D. Dickson, first met him.

Mr. John Murray, who has been a train despatcher in the employ of the G.T.R. for nearly forty years, returning from an interesting trip, during which he paid a visit to his friend, Edison, at Westfield, N. Y., said that Mr. Murray knew Edison well, and that the latter was a native vendor of the G.T.R. in '59. The following shows their relations. Mr. J. H. Baker, Mr. Edison's father, was at that time the Superintendent of the New York Union offices at New York, and he might see how business is conducted here, and this is what Edison told him:

July 15,

Mr. Murray prizes this day very highly.

**(THE STRANGE WARNING CHIMES FROM STRASSBURG CATHEDRAL.**

Particularities of the Timespiece In the British House of Lords—The Madman of Mecklin's Clock—"When Clocks Go Crazy, Things Go Daff." There is an old saw which declares that "when clocks go crazy, things go daff."

At 2 a. m. on Sept. 27, 1900, the world famous clock in the great cathedral at Strassburg commenced to chime without rhyme or reason. It sounded 1,870 peals, then stopped, and after an interval slowly began to toll as if for a great one dead.

The political atmosphere of Europe

found peace. Nothing of danger or disaster could by any possibility be conceived of as threatening Strasburg or its inhabitants. Yet less than a year afterward the German armies had encircled the city with a ring of steel and fire. The German shells were falling thickly in her streets and squares and exploding even within the precincts of the stately cathedral itself. And precisely at 2 a. m. Sept. 27, 1870, General Ulrich signed the capitulation which was to deliver Strasburg into the hands of the invaders.

In the house of lords is a certain historical timpiece which is said to invariably suffer from temporary aberration whenever a member of the royal family of Britain passes away. The peculiarity was first noticed when William IV. died. Very early in the morning the clock began to emit a series of peculiar gurgling noises, as though gasping for breath, went suddenly slow and finally stopped altogether. All efforts to start it failed, and on the evening of the day of the funeral it

It has over and over again been noticed that clocks, especially those situated in the turrets of high-buildings having unusually deep foundations, are liable to go wrong in sympathy with seismic disturbances happening in districts sometimes very far away.

On Nov. 1, 1755, for instance, fully half the timepieces in Edinburgh were affected. Many stopped altogether. Others went slow or fast or started

striking wrongly. In this the superstitious saw some calamity impending, and it was not until news arrived of the great Lisbon earthquake that the alarm was allayed. It was then discovered, by comparing times and dates, that the first shock must have traveled from Fez in Morocco to Cape Wrath in less than eight seconds.

A curious coincidence was then recalled. On the evening of April 7, exactly five years previously, several thousands of persons, particularly those of rank and fortune, had watched some of

This was to avoid an earthquake shock which had been predicted for the early morning of the 8th by an alleged "madman." The threatened quake, however, failed to materialize, and the scared ones got heartily laughed at for their pains. Nevertheless, it was noted at the time that several of the public and private clocks of the metropolis stopped at precisely the same moment on the morning in ques-

The so called "madness" of Mechlin's clock constituted one of the most mysterious incidents of the Napoleonic wars. It happened in 1842. Two years previously the Corsican usurper had razed a portion of the city to the

Inside the tower was the gigantic clock, the biggest in the world. It had counted the hours for longer than the boldest burglar could remember and

had never gone wrong. When, therefore, in the early dawn of one summer day the great bell began ringing furiously, small wonder that not only the city, but the whole countryside, was roused. Meville itself was like a disturbed hive, men rushing from their houses half dressed, but all armed, while from every town and village within a radius of twenty miles angry peasants poured cityward.

It was a false alarm, however, after all. No attack followed. No column of dust on the horizon barked the ad-

Enraptured in the massive works of the huge timepiece, torn, gashed, every bone broken, was the body of a French officer. He had evidently clung into the tower unobserved and had been caught by the mechanism while en-

thought of the possibility while engaged in tampering with it. What his object was in so doing none ever knew. That it was something sinister there could be no doubt. Probably he had intended to so arrange the interior mechanism of the clock as to cause it to sound a signal later in the day. At all events, whatever his plan, it miscarried. And he himself fell a victim to his own feverish and want of knowledge.

# STOCK CLEANING DAYS

These are days of clearing for us and days of money saving to you if you take advantage of our offerings.

Remnants, oddments, broken assortments, in fact all summer goods are priced at what would clear much less desirable materials.

It's a good time to put the test on our advertising.

If you see what seem to be extravagant statements, come to the store and give us the pleasure of verifying them. We guarantee you perfect satisfaction.

The goods are well displayed on tables. A few minutes spent in each department will give you a surprising revelation to you of what purchasing power money has in our store these days.

Many of our test offerings are not mentioned. These go to the ones who follow this with an early visit.

Numbers of ladies have already profited by an inspection. There is something here for you.

more wide spread than ever before. The figures and caricatures were everywhere. We have recently received a number of designs in this style which will be on our coverings and signs for late June.

The demand for the cause is spreading all over the country.

Our Corset department does not seem to need much publicity. The crowds of ladies who patronize this counter and tell their friends of the excellence of the lines we sell, make our best advertisement.

Just let you know a new shipment opened places our stock in the complete stage generally found only at the beginning of the season.

If you want a perfect fitting, durable light weight, inexpensive Corset we can meet your needs.

# Quick & Robertson's for Fine Clothes

There's no use of disputing the fact, that this store stands pre-eminent in this city as the store for Men's Fine Clothes.

With our large and pleasing varieties, up-to-date styles, and good making, we've won the trade of every man, and especially the trade of those men who are particular about the clothes they wear.

And why shouldn't we? You can't find a store that has, Ready-Made, such exclusive styles in suitings and summer garments as we are showing and offering of them from the best British and Canadian Mills.

Then, too, every garment is built to come up to the our high standard—built by the best makers who know how and do give close attention to important parts of tailoring—such as adjusting the collars, shaping the shoulders, proper placing of the sleeves and staking of the button holes.

Clothes made this way never lose their shape, and by so doing we have overcome that appearance which marks clothes as being Ready-Made.

The prices for such goodness ought 'xpect to be high but they are not—are no more than you would pay for ordinary sorts elsewhere.

## MEN'S SUMMER CLOTHES

## STRAW HATS

That's just what's bringing more men to this store every day—they're getting into the fact that the latest Quick & Robertson shows in every line are the largest and most liberal in form—right in every way; in quality the highest, in style the latest and in price the fairest. Better choose now while the choosing is good.

**MR. JERRY HURLEY'S ACCOUNT.**

Our readers have already seen in this column some reference to the scandal caused by the publication of the letter from Mr. Hurley to the Public Accounts Committee at Ottawa dealing with the starting machine employed by Mr. Edwards. Mr. Hurley, ex-M.P., to put his bill in the House of Commons.

The Ottawa Citizen of the 23rd, in its report of the proceedings of the committee, gives a synopsis of the statements made in evidence by Mr. Hurley, as to how he made out his account for services rendered as a Commissioner, while at the same time receiving pay as a salary, inspector.

The Citizen takes his article "Bill Mr. Hurley's Bill" from Mr. Hurley, ex-M.P., made out his bill for services rendered as a Commissioner, while at the same time receiving pay as a salary, inspector.

**THE WEEKLY TOPICS**

It is apparent from what we write that the Chief is having a time of his life. Good luck to him.

A Yankee paper publishes a story in its editorial column, stating that the "Palmers' ring" from the late Pope after he died, the ring about his neck was destroyed, and its disappearance, the story says, was caused by the Ottawa newspaper in the Vatican, mentioning the Ottawa paper.

**An English Major Stranded.**  
Toronto, July 22.—With a wife and four children depending upon him for support, a young man, who was a member of the 1st Battalion of the 1st Regiment of the 1st Division, was stranded in Toronto.

It is reported that the war report has been sent in White House and that the President has given his sanction to his question at the Council meeting.

A lot of papers in Ontario are taking the "Old Boy" headline and giving all sorts of insinuations to get their former readers to go back and visit them for a few days, some of the reasons have been fairly successful, while others have not.

# Quick & Roberts' Ready-Made Fine Clothes

There's no use of disputing the fact that this store stands pre-eminent in this city as the store for Men's Fine Clothes.

With our large and pleasing varieties, up-to-date styles, and good making, we've won the trade of every man, and especially the trade of those men who are particular about the clothes they wear.

And why shouldn't we? You can't find a store that has Ready-Made, such exclusive styles in suitings and summer garments as we are showing and everyone of them from the best British and Canadian Mills.

Then, too, every garment is built to come up to the our high standard—built by the best makers who know how and do give close attention to important parts of tailoring—such as adjusting the collar, shaping the shoulders, proper placing of the sleeves and stays and making of the button holes.

Clothes made this way never lose their shape. And by so doing we have overcome that appearance which makes clothes as being Ready-Made.

The prices for such goodness you'd expect to be high but they are not—are no more than you would pay for ordinary store clothes.

## MEN'S SUMMER FURNISHINGS

AND

## STRAW HATS

The Largest Variety assures the Easiest Choosing.

That's just what's bringing more men to this store every day—they are getting into the fact that Quick & Roberts' shows in every line are the largest and most liberal in town—right in every way; in quality the highest, in style the latest and in price the fairest. [Better choose now while the choosing is good.]

## TIMELY TOPICS.

It will be noted that The Intelligencer, in its report of the joint meeting of the Board of Trade and City Council last night, has omitted the name and location of the industry which is hoped to secure for Belleville. This was not done inadvertently. With the keen competition which exists to-day it is just as well not to let rivals know exactly what they have won or lost. The paper wishes the city to secure such things as it may secure the industry in question, which would mean to us just what we need in our business.

With the permission of the delegation no one can conscientiously find fault. If ex-deputy Johnson can infect the promoters with his optimism, Ald. Chown can certainly be relied on to give them a fair idea of local conditions in this city. The delegation may not be successful, but if failure attends their efforts it will not be their fault.

The assessment people got a little jar in last night's Council meeting. If some of them did not obey orders, why were they not disciplined?

One of the Aldermen last night asked what the recent legal "opinion" said but he didn't get an answer. Old Judge Fieldman has answered again, which shows that the talk about his giving up the fighting game is all talk.

Mr. O'Hanlon, and Mr. O'Hanlon, Conservative, were nominated by the voters of the Swan River ward in the Legislature.

## Cuts in Turkey.

In a recent book on his native country an intelligent Turk writes: "Formerly gals in Turkey were not allowed to learn the mystery of calligraphy. We have had some excellent postmen in days gone by, but none of them could write; they dictated their inspirations. The common explanation given of this traditional prohibition—for it is a custom rather than a rule—is that if girls were allowed to learn, they might have induced in harem passions and eventually have become witches. As a matter of fact, the real reason was quite different. There was a fear, perhaps not ill founded, that having once learned to write, they might hasten to make use of the accomplishment by composing love letters to young men with whom they could not marry, or by writing petitions for the strict execution of despotic orders at the expense of innocent people of their own race."

## A Hand Kneels.

"How nice and soft your hands are, Mr. Huffy!" "Yes, I am—sleep with my gloves on, don't you know?" "Indeed! And your hat also, sleep good?" "Mighty cheerful. Mamma had told her little daughter that she could not go out to play, but that she might go to the store to get some more pins. "Please, mamma; I won't forget, and I won't go on the grass. "No, you cannot, Dorothy," said mamma pleasantly, smiling at her daughter's persistence. Dorothy regarded her mother approvingly and then said, "I won't go on the grass, but I will go to the store to get some more pins. I am very much obliged to you, my dear mamma, for your kind attention." "Now you may go," said Dorothy, "but I will go to the store to get some more pins. ## HIS PARTING SHOT.

What the Deacon Thought of His First Turkish Bath.

The two young men had induced the deacon to take his first Turkish bath. They had put him properly attired, or rather, unattired, and had him escorted into the hot room.

The deacon didn't enjoy it, but he was gone. He pulled himself nervously on his ear, and every time he moved he seemed to strike a hotter spot. But he stood it like a man until the perspiration made frisks unbearable in running of him. Then he lifted himself on to his elbow and said plaintively:

"Let's get out of this."

That the young men only laughed and told him to keep quiet; that it was just getting comfortable.

When he finally absolutely refused to stand it any longer they led him into the steam room and sat down to gossip and enjoy his discomforts as he felt himself slowly boiling away.

And the deacon seemed inclined to lose his temper. It was aggravating to be so extremely uncomfortable when they apparently were enjoying themselves and would offer him no means of escape that would, to him, be dignified.

But there was an end of it. He got out, and as he looked "more in sorrow than in anger" from one to the other of them one asked:

"Now, deacon, what do you think of it?"

The deacon replied solemnly and with all due dignity, but rather peevishly:

"It's a good thing, young man; it's a remarkably convenient thing for some people who need to be minutely prepared to destroy the fond illusion that their father is a great man. I am not a great man, my dear, I am an imposter. I was not born in a log cabin, but in a three story block with stone pillars."—Chicago Post.

**Exaggerated Story.**  
"That," said the distinguished statesman's petted daughter, "you have never told me anything about the house in which you were born."

"No, my child," he replied, with a groan, "I have not—I could not bear to destroy the fond illusion that your father is a great man. I am not a great man, my dear, I am an imposter. I was not born in a log cabin, but in a three story block with stone pillars."—Chicago Post.

And he turned away to sing—Chicago Tribune.

**Letter and Wife.**  
"Strange and funny" young girl, isn't it, baby?

"How so, Willie?"  
"Why, there's a girl in town who used to boast that she was kissed by President Grant when she was a baby, but she now declares it was President Hayes who kissed her. In a few years she will be claiming that President Roosevelt kissed her when she was a mere child."—Heller Monthly.

**A Financial Note.**  
"Why, there's a girl in town who used to boast that she was kissed by President Grant when she was a baby, but she now declares it was President Hayes who kissed her. In a few years she will be claiming that President Roosevelt kissed her when she was a mere child."—Heller Monthly.

"What's up, old man? I never saw you look so lagged."

"The stomach bank is up; that's what's up. And my deposit's gone up with it."

"Oh, I wouldn't let a thing like that upset me."

"I'm not upset; merely lost my balance."—Philadelphia Press.

**Confidential Say.**

Spyderberry—That so? Who was the man shot?

Boudgrees—Vito shot him! Boudgrees—No, Toledo Blade.

# Quick & Robertson's for the Home

There's no use of disputing the fact: this store stands pre-eminent in this city as the store for Men's Fine Clothes.

With our large and pleasing variety, up-to-date styles, and good making, we've won the trade of every man, and especially the trade of those men who are particular about the clothes they wear.

And why should we? You can find a store that has Ready-Made, such exclusive styles in suitings and summer garments as we are showing and everyone of them is from the best British and Canadian Mills.

Then, too, every garment is made to come up to the high standard—built by the best makers who know how to do give close attention to important parts of tailoring—such as adjusting the collars, shaping the shoulders, proper placing of the sleeves and tails and making of the button holes.

Clothes made this way never lose their shape. And by so doing make that appearance which marks clothes as being Ready-Made.

The prices for such goodness you'd expect to be high but they are not—are no more than you would pay for ordinary stores elsewhere.

# STRAW HATS

The Largest Variety assures the Easiest Choosing.

That's just what's bringing more men to this store every day—they are getting into the fact that the selections Quick & Robertson shows in every line are the largest and most liberal in town—right in every way; in quality the highest, in style the latest and in price the fairest. Better choose now while the choosing is good.

### TIMELY TOPICS.

#### THE DOWNFALL OF JERRY.

(With apoplexy to the shade of the late Jerry.)  
(Which I rise to remark.)  
And my language is plain  
That for ways that are dark  
And tricks that are vain  
Our old friend Jerry is peculiar.  
Which the same I am free to maintain.

Of course you all know  
As I frequent Port B.  
He draws a cool hundred  
A month by his bow.  
Which the same I is not to be  
accused at.

Specimens of a slouchy pouch.  
And our friend Jerry is  
Got along very well.  
Though the people laughed at him  
And called him a well.  
He had nothing to do—and he did it  
He did it exceedingly well.

And then came the time  
That the census was took  
Which the tricks muddled so  
(As you'll see if you look)  
And 'twas then that our friend Jerry  
Died, Sir.

Sweetest the sum in his little book.  
He was blown a job  
And took the other  
Who collected the data  
And looked after the manner  
Which brings tears to the nub of my eye.

But also one fine day  
This whole story came out  
Was drawn out, in fact,  
With a rule Jerry thought  
By that showed Jerry, W. B. Nar-  
throp.

Who played Jerry, H. like a trout.  
And how you would think  
He would feel some small shame  
And hang low his head  
Thus to low his fair fame  
If you think that he does 'em  
That is not the way he plays the game.

You may wonder  
And cry out they will  
You'll find Jerry H.  
As his old place they still  
Why does he care for the scandal  
So long as his friends paid the bill?

There's a lesson in this  
For the critics of to-day  
When you get a soft job  
To content with your pay.  
Don't try to take more than is  
honest.

Next morning they'll be found out  
In some day.

# QUICK & ROBERTSON'S FINE CLOTHES

There's no use of disputing the fact that this store stands pre-eminent in this city as the store for Men's Fine Clothes.

With our large and pleasing variety, up-to-date styles, and good making, we've won the trade of every man, and especially the trade of those men who are particular about the clothes they wear.

And why shouldn't we? You can't find a store that has, Ready-Made, such exclusive styles in suitings and summer garments as we are showing and everyone of them from the best British and Canadian Mills.

Then, too, every garment is built to come up to the our high standard-built by the best makers who know how and do give close attention to important parts of tailoring—such as adjusting the collars, shaping the shoulders, proper placing of the sleeves and stays and making of the button holes.

Clothes made by this way never lose their shape, and by so doing we have overcome that appearance which marks clothes as being Ready-Made.

The prices for such goodness you'd expect to be high but they are not—are no more than you would pay for ordinary stores elsewhere.
